Blanchard was "into" PENILE PLETHYSMOGRAPHY?!

His own sexual preferences remained something of a mystery - considering his interest in Johnny's - it didn't seem unfair to wonder....

Penile plethysmography (PPG), or "phallometry", refered to measurement of bloodflow to Johnny's DICK.

The most commonly reported methods of conducting penile plethysmography involved the measurement of the circumference of the penis with a mercury-in-rubber or electromechanical strain gauge, or the volume of the penis with an airtight cylinder and inflatable cuff at the base of the penis. Corpus cavernosa nerve penile plethysmographs measure changes in response to inter-operative electric stimulation during surgery. The volumetric procedure was invented by Kurt Freund and is considered to be particularly sensitive at low arousal levels. The easier to use circumferential measures are more widely used, however, and more common in studies using erotic film stimuli.

It almost mad him HARD!

*****

Some wannabe "URBAN PLANNER" defended the beauties of THING STREET of which $CAMH was now an especially PROMINENT PART.
It ALL looked like MENTAL HELL....

Jane Jacobs Jr.? Albert Speer the 2nd?

Lauded BELL and $CAMH for "working tirelessly" to END STIGMA. Thought it was great that poor people didn't have any cheap places to live - thanks to TRIXIE SANE and $CAMH gentrification....

Even the TWIN TOWERS got a MAKE OVER....

Even GROUND ZERO was TRANSFORMED...

STIGMATISED such accommodations as CRACK DENS for PROSTITUTES.

Definitely the PARTY LINE of the PHARMAFASCISTS - fuck the poor, and drug them after, while whoring for the middle class - even though he knew, living in a WELFARE HOTEL himself, there weren't any crack dens and - as for PROSTITUTION - poor people scarcely had a MONOPOLY on THAT, now did THEY...

Johnny couldn't think of ANYTHING more STIGMATISING than $CAMH and HELL TALKYPHONE - just walking up mis-named WHITE SQUIRREL WAY - you
